CEO INITIATIVE AT A GLANCE

The rules of growth, power and leadership are being rewritten. The Great Realignment is underway.

As markets fragment, technology accelerates and geopolitical fault lines shift, Greece stands at a strategic crossroads of regions, capital and ideas. The **Fortune Greece CEO Initiative** is a year-round platform bringing together leading CEOs, policymakers and thought leaders for high-level dialogue, proprietary intelligence and meaningful exchange, building a powerful leadership community designed not simply to navigate change, but to help shape what comes next.
